

112,5°+ 112,5°+135° TRI-COLOR LIGHT, SINGLE, HORIZONTALLY MOUNTED

1 nautical mile 101-005 (<12m / <39.4')

2 nautical miles 201-005 (12 - 50m / 39.4' - 164')

This LED navigation light consists of three high-power LEDs that produces light in the specified angles utilizing special designed PMMA light guides.

The precision machined 6082 aluminium housing with an anodized surface makes the light a rugged and durable housing for the LEDs and electronics contained within.

The interior is completely filled with a special potting resin making it water- and vibration proof.

Produced in our in-house manufacturing facility to meet and exceed exacting standards such as EN14744 and UL1104, under a quality management system continuously surveyed by Lloyds Register Quality Assurance.

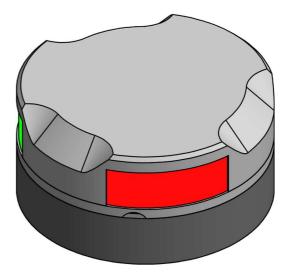

Each light is subjected to final testing for a minimum of 16 hours of continuous operation bringing the total test time beyond 24 hours.

This navigation light is in compliance with the following standards:

- COLREG72
- EN14744
- IEC 60945
- USCG (UL1104)

Together with an appropriate Control & Monitoring System, such as Lopolight's own NLC* this navigation light can form part of an IMO MSC 253(83), LY3 and LY4 compliant system.
